

## SPEED DEVILS COMPETE

(By Associated Press.)

LONG ISLAND (Motor Park Way), Oct. 10.—By his marvellous driving of his Italian car 254.6 miles in 219 minutes—64.25 miles an hour—in the Motor Parkway sweepstakes for stock cars selling at \$4000 and over, Herbert Lytle not only broke this country's speed record, but demonstrated the success of the new million-dollar speedway for a speed-making course. But few spectators witnessed the events. Only second in interest was the close rivalry between Drivers Sharp and Bourque of the Garden City sweepstakes string. The former covered 187.6 miles in 199 minutes. It was a nip and tuck race for many miles.

The only accident at all serious was to Machinist Lamond in Driver Miller's car, contending for the Garden City sweepstakes. He was thrown out and sustained a fractured leg.

## TAFT IN SUNNY SOUTH

CINCINNATI, Oct. 10.—"I'm going south to make a few speeches in Kentucky, Tennessee, North Carolina, Virginia and Maryland, not so much with a view of carrying those states as to show their people they are a part of the union, and as such ought to vote for the party which will give them such influence in the nation as their progress, energy and enterprise entitle them to." Judge Taft said this to the Taft-Sherman club at Highland, Kentucky, which came to the Sinton hotel to pledge its support. His address throughout was an expression of intense feeling regarding the political condition of the south.

## BETTER CONTROL OF BANKS

WASHINGTON, Oct. 10.—Comptroller of the Currency Murray announced today that he had decided to put into immediate action a plan for the formation of eleven districts of national bank examiners, with a chairman who will preside over quarterly meetings of all the examiners in each of the districts and in the intervals between such meetings will keep in touch with the examiners of other districts.

From the reports of examiners the chairman will compile reports to the comptroller, designed to furnish in detail a list of the lines of the overextended credits, large loans and heavy borrowers, and in general all of the questionable or doubtful paper which comes to the attention of the examiners. The co-operation of the districts with the clearing house associations of the locality also is a contemplated feature.

Following are the boundaries of far western districts tentatively determined upon, with examiners in charge.

District 9—Headquarters Fort Worth, Texas, Examiner J. M. Logan in charge, will include Texas, New Mexico and Arizona, with four examiners.

District 10—Headquarters Denver, Examiner F. L. Klein in charge; will include Colorado, Utah and Wyoming, with two examiners.

District 11—Headquarters San Francisco, Examiner E. T. Wilson in charge; will include Montana, Idaho, Washington, Oregon, Nevada and California, with six examiners.

## The Trans-Mississippi Commercial Congress Goes on Record

SAN FRANCISCO, Oct. 10.—Reaffirming its support of a score of broad policies affecting the resources and development of the west, and entrusting the destinies of their organization to their new officers, the delegates to the Trans-Mississippi Commercial late today adjourned sine die the nineteenth annual session and departed for their homes.

The last day of the congress was characterized by the only important contest of the five days, precipitated by a difference of opinion over national legislation known as the parcels post measure. A resolution supporting the attitude of the postmaster-general was defeated by a vote of 140 to 60.

The installation of President Thomas Walsh of Denver and other officers elected was a feature of the day.

Resolutions adopted today declare the sentiments of the congress upon many subjects. The congress of the United States is urged to take immediate action supporting an increased merchant marine; to provide two coast havy yards sufficient to care for an adequate Pacific fleet; to permit improvement of nearly all harbors and navigable rivers of the trans-Mississippi region; to appropriate an annual sum of \$50,000,000 for advancement of the lakes to the gulf waterway project. In addition the congress approved legislation providing protection of water and forest rights; revision of tariff and protection of domestic sugar. The congress adopted a resolution endorsing suffrage for women.

## CHICAGO WON FIRST GAME

DETROIT, Oct. 10.—Rain rendered the first series of baseball games between the Detroit Americans and the Chicago Nationals for the world's championship, which went to Chicago at Bennett park this afternoon by a score of 10 to 6, an aquatic exhibition of some merit. To an impartial observer it was a tank with many scenes of low comedy, but to local enthusiasts the comedy was tragic. It was not pleasant locally to observe Catcher Schmidt of the Tigers lying prone in the mud four feet from the home plate with the ball in his hand, struggling to arise while a Chicago runner trotted in with a run.

Chicago was compelled to use three pitchers to win, while Detroit employed two in her efforts to check the Cubs. The game was full of surprises and heart-breaking climaxes. Detroit in their half of the first inning put a run across the plate in sharp fashion amid the deafening shouts of the local crowd and silence sprinkling the Chicagoans in the stands. In the third Chicago rushed in four tallies while the locals were unable to connect with the ball.

In the seventh pandemonium reigned as Detroit added three more to their string, making the score 5 to 4 in favor of Chicago. The noise became ear splitting in the next inning when the Tigers got two more, giving a lead of one run. The ninth inning was different. It belonged strictly to Chicago. Coming from behind they annexed five more tallies and a lead which seemed insurmountable and which proved to be so. Even then with memories of previous innings the cheering local enthusiasts did not give up hope of Detroit tying the score or even winning out. But Brown, all the season the mainstay of the Cubs, when the crisis was to be met, was pitching steady ball, and the best Detroit could do was to get one hit and no runs. The attendance officially was given out as 10,182 paid admissions, curtailed by the weather. Chicago won by heavy, opportune hitting and brilliant work in the field.

The gross receipts were only \$16,473 today. Of this, \$1647 goes to the National commission, \$2965 to team owners and \$6895 to the players.

## BRYAN MAKES VOCAL RECORD

(By Associated Press.)

ST. JOSEPH (Mo.), Oct. 10.—With a record of twenty-six speeches delivered during the day William J. Bryan brought to a close in this city tonight his latest tour. The reception accorded him with a fitting finale to the unprecedented demonstrations which marked his progress through this state. Today's journey, which was through eight counties of the state, might well be termed a "harmony meeting," for aboard his special train were representatives of several factions of the Missouri Democracy, who were outspoken in their determination to actively support the national and state ticket. From the moment of his first remarks until he concluded here, Bryan declared the electoral vote of Missouri safely Democratic. He didn't overlook President Roosevelt in discussing the trust question, and read a communication from the acting attorney general of the United States which he interpreted as a direct refusal upon the part of the law department of the government to prosecute corporations for conducting business in restraint of trade. He produced a letter, he said, to show the iniquity of the trusts and then attacked the president for, as he charged, shirking his duty. Taft as usual got his share of criticism.

While speaking at Glasgow to a big crowd an incipient panic occurred, caused by some one letting out a cry that a train was coming. Men, women and children were knocked down, several women fainted and two old men and an old woman appeared badly hurt. Bryan urged the people to be calm. The train which the people thought was coming upon them was flagged and the fright was over. The crowd again surged around the candidate's car and he spoke for a few minutes longer.

After securing his booty the bandit apologized, saying hunger had driven him to commit crime.

## WATTERSON TALKS FOR FIRST TIME SINCE 1892

LOUISVILLE, Oct. 10.—Henry Watterson presided and was the principal speaker at a Democratic rally in the Masonic theater here tonight. As this was Mr. Watterson's first political speech since 1892 and will probably be his only platform utterance during the present campaign, much interest was manifested. Former United States Senator William Lindsay and Congressman Shirley also spoke.

## SEVEN KILLED BY AN EXPLOSION

RICHFORD (Vt.), Oct. 10.—It was generally believed that seven persons met their death in the explosion of the grain elevator on Wednesday night, the accounts of Time-keeper W. C. Bonney, who himself was burned to death, showing the names of at least six laborers not accounted for up to the present time. The ruins were still smoldering today and probably will continue afire until the great quantity of grain is burned out. In the meantime no close inspection of the scene is possible.
